Construction Management

July 11, 2018

Debbie Thompson
Hubbard County Coordinator
301 Court Ave
Park Rapids, MN 56470

Dear Deb:

Thank you for providing us the opportunity to submit our proposal to assist the County with the interior front entrance security build out of the Hubbard County Government Center.

We have included in our proposal the cost to provide the construction management services to work with the County and Vetter Johnson Architects to develop the plan best suited for the County. These services include the front end development, budgeting, bidding and managing all contracts, insurances, permits and bonds along with all required contractor close out documentation.

We propose to do this work for the sum of \$6,500.00. We realize that full time onsite supervision will not be required so in an effort to minimize costs, any onsite representation by Contegrity Group will be billed at a rate of \$78.00 /hr. plus mileage.

Thanks again for your consideration.

Sincerely

Pete Filippi
